

Betley Family Farms Internship

Pulaski, Wisconsin | 3,500-Cow Dairy | 4th-Generation Family Operation

About Us:

Betley Family Farms is a progressive, family-owned dairy dedicated to producing high-quality milk through innovation, sustainability, and teamwork. Located just north of Pulaski, we care for 3,500 cows and are continually expanding to meet the future of dairy production.

Internship Opportunity

Summer 2026

Housing is provided

What You'll Learn

- Reproductive Management: Assist in heat detection, breeding, and pregnancy checks.
- Herd Health: Observe, diagnose, and treat cows under the guidance of the herd health team.
- Calf Care: Learn feeding programs, colostrum management, and health monitoring.

Independent Project

Engage in solving a real-world challenge on the farm. Possible topics include herd health, milk quality, feeding, or sustainability.

Qualifications

- Enrollment in Animal Science or related program.
- Strong teamwork and communication skills.
- Required experience with dairy/livestock.
- Comfort with working outdoors and early mornings.

Why Betley Family Farms?

Gain hands-on experience on a large, forward-thinking, family-owned dairy farm while building skills in herd management, data recording, animal care, and on-farm problem-solving.
